Subject: WA{ / LDR workgroup - update
revisedWAPtable-8-7-18.docx

WAP workgroup:

Just a heads up on current progress.

Most of you have seen the attached document that is the result of analysis conducted on most of the WAPs our HQ team members (primarily Elaine) have reviewed. The first part of the document gives summary information and outlines the analysis. The second half is all the data/information pulled from the WAPs.

We recently noted that we still needed additional WAPs. We've received a number of those, and expect to receive the remaining ones by mid-September. Once those additional WAPs are reviewed and summarized in the same manner as the ones reflected in the attached document, we'll be better positioned for a productive call.

Due to scheduling conflicts, we don't plan on any calls until early October.

Thanks for your continuing patience as we progress through this lengthy part of the process – data gathering and summarizing.

Thanks!

Jeff Gaines
