Hi Phil,

I noticed you were absent from the cc list, so I'm forwarding this to you and cc'ing others, so you don't receive 5 copies.

Regards,
Jeanne

Subject: Buoy Data - Phase II Marine DO Criteria - MassDEP/EPA RI/TT/Normandeau

Hello,

During our meeting on March 20th we discussed dissolved oxygen data from the MassDEP buoys deployed in Mount Hope Bay. NOTE: These data are currently being validated by MassDEP, Division of Watershed Management, and are considered DRAFT. As a result of DWM's data validation process, some of these data may be censored or qualified. Users of these data are advised to check with DWM for the latest available and final (published) data.

Please see the attached pdf with DRAFT dissolved oxygen concentration and saturation data from both buoys. In addition, please see the attached spreadsheet with DRAFT buoy data from May to November, 2017.

Thanks,

Richard O. Carey, Ph.D.
Massachusetts Department of Environmental Protection
Division of Watershed Management, Watershed Planning Program
Surface Water Quality Standards Section
