Richard.....since he is in today, we'll look to have Steve Fuller or Laura Wilson come get it. To be safe and give him time, can we see if 2:00 - 2:30 works. If so, Steve or Laura will have him called after they check in.

With that said, would it be advantageous to have had someone at least peruse that data before we chat? If so, a Wednesday mid morning call may work. We will be able to move forward on some general stuff in the meantime and get specific direction then. Conversely, we could have a chat this afternoon (say 3 PM) after we've retrieved the data, but before any in depth review.

Also, are the ship specs with that data or separate?

Thanks Jonathan. I'll ask our contractors at Tech Law to come by and pick up, and will let you know who/what/where/when.

Happy New Year.

Do you guys know where this is? I need to have our contractor (Tech Law, Inc.) come over and get it as soon as possible.

Thanks. I hope you all are having a great holiday!
