Subject: Final Mercury and Air Toxics Standards (MATS) for Power Plants

Hi Rudy,

I had a constituent contact me with concerns about mercury emissions from power plants. I see that EPA sets Mercury and Air Toxics Standards (MATS) for power plants, and I was wondering when the standards were last updated (and what they are).

There is mention of them on the EPA MATS website (https://www.epa.gov/mats/regulatory-actions-final-mercury-and-air-toxics-standards-mats-power-plants), but I am not able to click on the link to the final standards (in the box on the top right of the webpage).

Could you please tell me when MATS were last updated, and point in the direction of where I might find them?

Thanks,
Haley

Haley Pero
