REMARKS

I don't know if SF is planning to cost recover from Drexlers / Bingham on this or what.

Call from John Meyer returning my call re Arrcom

<u>update on SF activities at Arrcom</u>

Site has been cleared off
Tanks are gone

Most has been cleared off - A few more weeks to finish up.

- Some remaining soil needs to be excavated
  - (Area where largest tanks were)
  - Using Field Screening (GC) to determine depth of excavation
    - Will take soil samps 1 ft deeper for confirmation - send these to lab.

- Planning to put in 3 mw
  1 up
  2 down
  (1 old well at site; not going to use; quality unknown),
  (+ private well data nearby)
- Will use gw data + data from confirm. samps in risk assessment

- Aiming to do risk assessment in FY 88 - 2nd qtr.
  - hoping to delist

- Not planning to do further remedial invest. at this time

- Drexlers so far haven't bothered them; are supposed to pick up some trucks but haven't so far; SF will dispose of if not picked up

- Not going to put in fence (site will be cleared off + graded)

2/6

Stephanie
~~Chuck~~ - - sounds ok to me
Thx
CR

Word from John Meyer re Aircom:
Carl Kitz + co. just out there -
Snow on ground. Couldn't see
any evidence of recent tampering
or recent leakage from tanks
(May need to go back in spring or
summer to fully assess) Did
not seem to be any big emergency
at this time.

Stephanie
