I came to Columbia Falls in 1962 as a 4th grade teacher and have raised my family here. I am very proud of our community. CFAC provided great opportunities for the Flathead Valley. They were great partners in our community and met all environment standards.

I attended the May 25, 2016 tour. I was very pleased with the progress that has been made on the cleanup. Please allow CFAC to continue working to complete the job. We do not want the bad name for our community that a Superfund listing would cause. New businesses are starting to invest in Columbia Falls.

We all want the land cleaned up and to be productive in the future.

Thank you.

Carol Pike
