SUMMARY OF COMMUNICATION

In reference to a phone conversation with Linda Strout of the Port of Seattle I discussed with Dean Ingemansen whether the Port of Seattle could modify the certification language of 40 CFR 270.11 (d) for their certification signature for the Chempro Pier 91 facility for which the Port is the property owner. The Port wanted to replace the language, "prepared under my direction or supervision" with "reviewed and to the best of my knowledge were prepared," because the Port ~~das~~ did not supervise preparation of the permit application. Dean informed me that the proposed language change was fine and allowed as long as Chempro signed the 40 CFR 270.11 (d) certification verbatim.

I contacted Linda Strout to inform her of the approved wording modification.
