I'm checking with Lisa, I'm not sure how it would affect our CERCLA based work. Tom

Hi Tom,

We haven't a decision or a date yet for selection of Superfund or Superfund alternative for CFAC. However I'm sure a decision will be made yet this fall. (September/October timeframe.)

As far as OU1/2 inspections any time after August would be one year from the last one. You should probably get your cooperative agreement in place prior to inspection if that hasn't already been done.

Is Colleen coming to the kick off meeting next Tuesday?

Maybe one of the topics for future IC issues may be the "Carrot or the Stick". What I mean is to talk about other properties like the one where folks do as they please and we get to clean up the mess. We had another one where someone (Alan Olson dug this, supposedly without owner permission and brought some tailings material to the surface.) He didn't tell anyone and someone else called it in. We can talk about details later. Just thought we should continue our dialog on ICs.

Have a great weekend,
Mike

Mike,

Anything scheduled for CFAC in the coming weeks were we might need Colleen? I need to give her a 90 day look ahead. For Libby, I know we need to be thinking about the OU1/2 inspection schedule, anything else?

Tom
