MEMORANDUM

SUBJECT: Draft Corrective Action Permit
Armco, Inc.
Kansas City, Missouri
EPA ID# MOD007118029

FROM: Lyndell L. Harrington
Chief, Permits Section, RCRA Branch
Waste Management Division

TO: Baerbel Schiller
Associate Regional Counsel

Attached is a copy of the Draft Corrective Action Permit for Armco, Inc., located in Kansas City, Missouri. Because MDNR, plans to public notice this Permit before September 30, 1992, we would appreciate your review of this Permit and comments, if any, as soon as possible and no later than September 8, 1992.

The format of this Permit is similar to the Kerr-McGee Permit which you staff reviewed in April 1991. Although the format deviates from the model permit, my staff has found this format more readable and hope to incorporate it into any revisions of the model permit.

If you have any questions concerning this Draft Permit, please contact Katherine Bello, of my staff, at extension 7450.
