Subject: RE: CFAC RI/FS Comments

Mike:

I received the files from CFAC and gave a very quick look at the responses to comments. I'm optimistic that the plan is nearly complete. We will coordinate through Damon as we look over the revised documents.

Curt

Subject: FW: CFAC RI/FS Comments

Hello All,

I just received comment responses from Roux/CFAC. Most of you will be receiving a link to the updated work plan. Please keep me in the loop when you receive the link and remember we would like our review completed by November 13, 2015.

Thanks,
Mike

Subject: CFAC RI/FS Comments

Mike:

Roux Associates, Inc., on behalf of the Columbia Falls Aluminum Company, LLC (CFAC), has completed revisions and updating of the RI/FS Work Plan and the Phase 1 Site Characterization Sampling and Analysis Plan (SAP) in response to the comments provided by EPA with your email dated October 6, 2015, and based upon the additional comments and discussions at our Site meetings on October 7 and 8, 2015. Two documents are attached summarizing the comments

provided by EPA (including from MDEQ) and a description of how and where each of the comments has been addressed within the updated documents.

A separate email from Roux Associates will be sent with a link to the FTP site from which the updated documents can be downloaded. In order to facilitate EPA review, we will be providing the text of both the RI/FS Work Plan and SAP as Word documents in track changes mode, and an updated version of the QAPP crosswalk table as a Word document. In addition, we will provide PDF versions of the complete documents with all changes accepted. This will include attachments and maps.

We believe we have covered off the comments in accordance with our discussions in Columbia Falls and look forward to moving forward with this effort towards finalizing the AOC between EPA and CFAC.

Anything further please let us know.

John
