RE westlake land fill
EPA Administrator Pruitt

Dear Mr Pruitt

Please look at the permanent and complete Solution to westlake landfill. Which includes relocation of families, offsite disposal of radioactive waste, full excavation, testing of offsite areas.

Republic waste has spared no expense to ~~cure~~ avoid curing the ills caused by thier legacy company. EPA should represent the people of St Louis, rather than the expensive lobbyists and propoganda of Republic waste

Please remember Republic Waste has failed landfill management 101 (the "fire") failed sewage waste management 101 "leachate" but mastered lies, decivet and corruption "not a fire but an exothemic chemical reaction" "found no radiation"... beyond the areas tested "Coalition to keep us safe" - a astroturf "grass roots organization" fully funded by Republic, and illegally concieling sources of poli donations to various state officials,

30325419

So please set politics aside and protect the people of Northwest St Louis County from those at Republic Waste who are avoiding responsibility for the problem at our expense.

Please provide relocation for impacted families Removal of the material from populated areas and protection for our US water Supply (mississippi and missouri rivers).

Thank You

Dan Hyatt
