Subject: CFAC Draft Background Investigation Sampling and Analysis Plan

Mr. Cirian,

Attached is the Draft Background Investigation Sampling and Analysis Plan (Background SAP) prepared for the CFAC RI/FS.

As discussed during our onsite meeting in early May, CFAC/Roux plans to complete Round 1 of background sampling during the June high-water sampling event (beginning June 4, 2018). CFAC/Roux would like to setup a conference call with EPA/MDEQ early next week to discuss the background sampling scope and schedule. Please let me know your availability for a call early next week.

Please contact me if you have any questions regarding this submittal.
