February 13, 2018

Dear E.P.A.

I am concerned about your suggestions regarding cleaning up the West Lake Landfill.

1. Please remove all contaminated materials.

2. Store this contaminated material off site.

3. Offer a just voluntary buy-out to residents

4. Remove radioactive material because it is in the Missouri River Flood Plain

Thank you!

Sister Joanne Marie Otte, S.S.N.D.
