February 19, 2017

Dear E.P.A.

I am concerned about the West Lake Landfill and its effect on residents of the area. Therefore, I ask you to consider:

1.) To remove ALL contaminated materials

2.) To store the contaminated materials off site

3.) To remove radioactive material because it sits over a fresh water aquifier

4.) To offer a fair voluntary buy-out to residents.

Thank you for considering these requests.

Sister Carol Marie Weldt, SSND
