Feb. 18, 2018

Dear E.P.A.,

I am concerned about your suggestions regarding cleaning up the West Lake Landfill & I am also concerned about the effects of the Landfill on the residents of the area.

1. Please remove all contaminated materials.
2. Store this contaminated material off site.
3. Offer fair, voluntary buy-outs to residents of the area.
4. Remove radioactive material because it is in an earthquake zone & in the Missouri River Flood Plain & this material could have devastating effects on our sisters who live 5 miles away.

Sister Sandra Bay, SSND
