February 19, 2018

Dear E.P.A.

I am concerned about your suggestions regarding cleaning up the West Lake Landfill. Therefore, I ask you to consider:

1.) To remove ALL contaminated materials

2.) To store this contaminated material off-site

3.) To offer a just voluntary buy-out to residents

4.) To remove radioactive material because it is in the Missouri River Flood Plain

Thank you for your consideration.

Sister Carol Marie Wildt, SSND
