Steve, yes Please follow up with Mr Hanners directly. I think that would be good.

Ann, did Susan provide you a copy of her presentation while at the meeting?

remains the EPA project lead for the site. EPA and DEQ work together to oversee the investigation of the site for contamination.

I was not at the last meeting but I can try to track down The EPA toxicologist's presentation in case Ann Green doesn't have it.

Here are Ann Green's and Steve Wright's emails:
agreen@anngreencomm.com
Swright@cfaluminum.com

I hope this helps.
