Dear Mr. Washburn,

I want to take just a minute of your time to write a note to you expressing my concern for members of my community affected by the West Lake Landfill. I am pleading for the U.S. Government to protect citizens from the harmful effects of the radioactive waste that has been discarded in an area where people live and children grow and play. I ask that these following points particularly be remedied by the EPA:

1) Removal of the contaminated material as much as is possible.

2) All hazardous waste must be stored off-site in a receptacle that can safely contain radioactive waste.

3) Give home owners a voluntary buy-out before excavation begins.

Sincerely,
Mary C. McVey [redacted]
