Hi Michael, I'll sign the mod when I'm back in the office on Monday. Please note that additional testing may be required, as noted in the comments. The approach you are suggesting is fine to gain an initial understanding on whether the Pot Room concrete is contaminated with fluoride, but will not fully characterize all of the concrete for the propose of backfill. At this stage I think we need to see what the results show.

For planning and scheduling use this email as my concurrence on the mod.

Mike

Subject: Concrete SAP Modification #1

Mike,

As discussed this afternoon, we are submitting this modification to perform additional concrete sampling. Please let us know if you concur with the additional proposed sampling.
