Table of Contents

1.0 Introduction 1
1.1 Applicable Water Quality Standards 4
1.2 Point Sources 4
1.3 Abandoned, Inactive, and Semi-active Mines 4
1.4 Landuse and Geologic Data 5

2.0 Data Summary 6
2.1. Water Quality Data 6
2.1.1 Dissolved Copper Instream Data 7
2.1.2 Hardness Instream Data 7
2.1.3 Total Lead Instream Data 7
2.1.4 Hard Rock Data 7

3.0 Model Implementation 15
3.1 Hydrology Calibration 16
3.2 Dissolved Copper Recalibration 19
3.2.1 Existing Conditions Scenarios 21
3.2.2 Dissolved Copper Mining-Background Scenario 26
3.2.3 Oak Flat Dissolved Copper Scenario 28
3.3 Total Lead Model Implementation 31
3.3.1 Total Lead Existing Conditions and Mining-Background Scenarios 33
4.0 References 35

Appendices

APPENDIX A Queen Creek Hydrology Calibration A-1
APPENDIX B Queen Creek Dissolved Copper Calibration B-1
APPENDIX C Queen Creek Total Lead Calibration C-1
