Memo

EPA Region 5 Records Ctr.
324743

Date: September 9, 1986
To: File
From: Cynthia Pugh CP
Subject: Illinois/R05-8605-05/IL0036
Lansing/CTO: Kingery Development Corp.
ILD 980677694

On September 9, 1986, F/T Members, Ruth-Ann Jacquette and Cynthia Pugh of Ecology and Environment, Inc., conducted a Drive-By Site Inspection at the CTO: Kingery Development Corp. The site appeared to be covered by grass and grown over with weeds. The exact site boundaries could not be visually determined, however, the north side of the site was fenced and had a gate. The west side of the site appeared to be fenced while the east side did not.

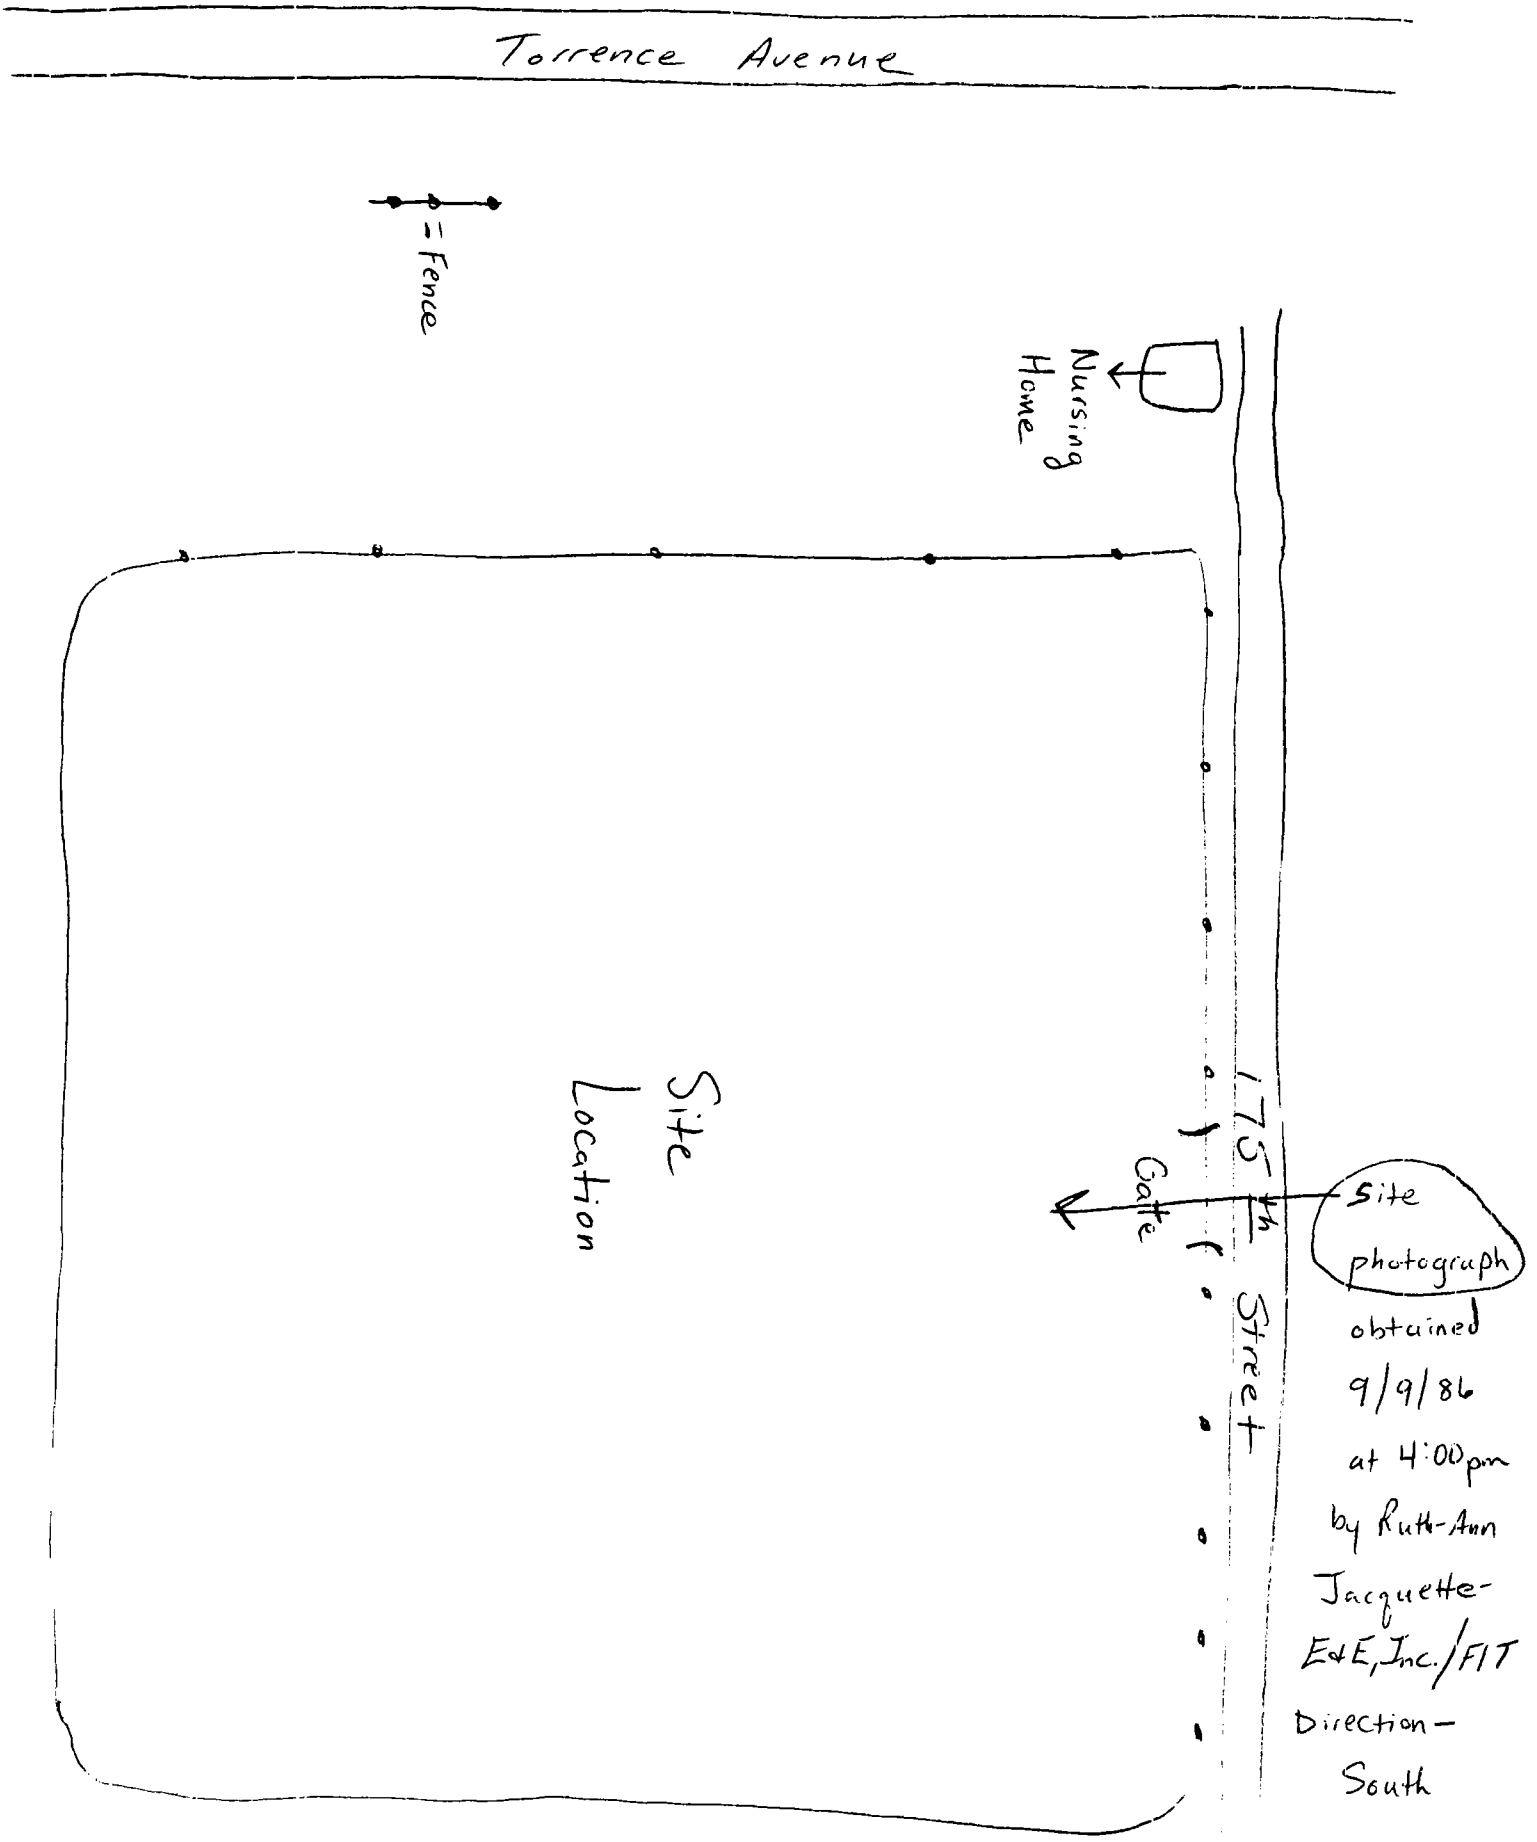
No activity was observed at the site. A photograph was taken looking towards the north side of the landfill.

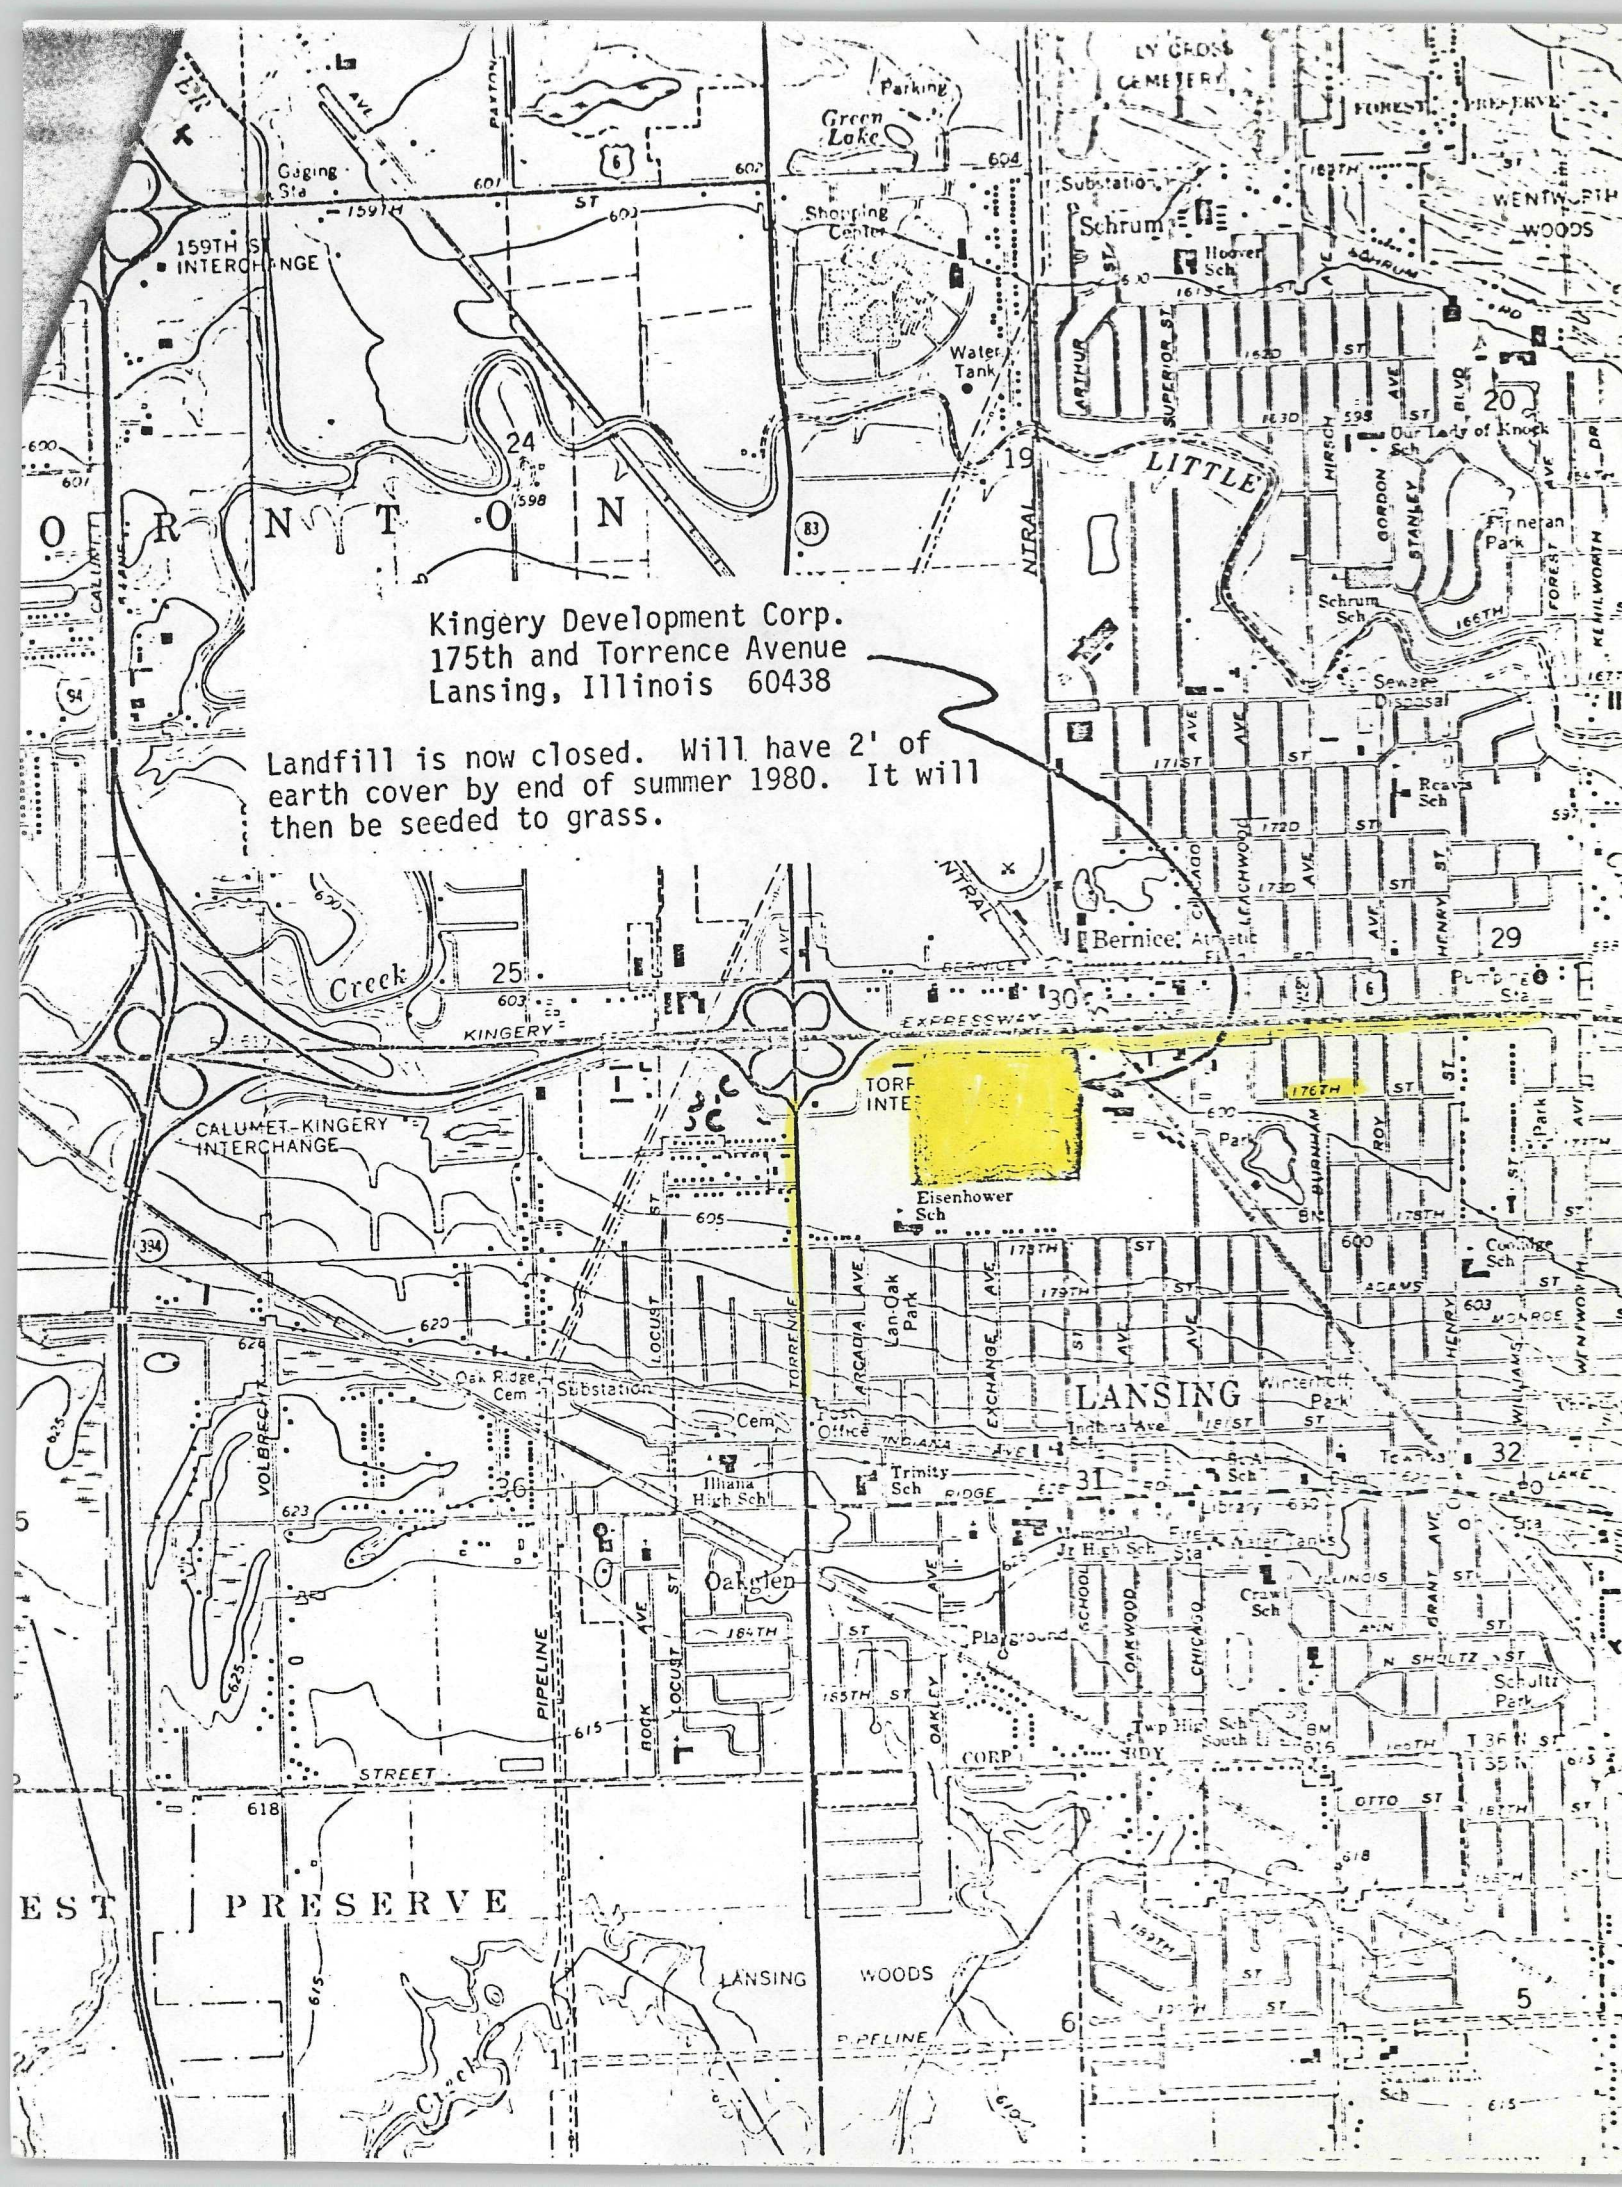
A "For Sale" sign was posted on-site and contained the following information: For Sale; 38.8 Acres, Gierczyk Development, 333-5330.

Site Sketch:

CTO: Kingery Development Corp.
Lansing, Illinois

→ North





Kingery Development Corp.
175th and Torrence Avenue
Lansing, Illinois 60438
Landfill is now closed. Will have 2' of earth cover by end of summer 1980. It will then be seeded to grass.
