CONVERSATION

DEPARTMENT EMPLOYEE	OTHER PARTY
	Calling in response to DEQ 11/9/82 letter
Date when no longer I.S. facility and you would be shipping waste off-site in 90 days or less	what is meant by the date of last shipment
that's true	legally that would be the day when I.S. is terminated. Norplex has a transporter contract requiring shipment over 60 days Also we would transport waste up to our La Crosse Plt if the 90 days was approaching
	clean-up, no spillage has occurred Joe Sinfelippo has done a number of inspection to verify that.
	will send amended notification.
you seem to have covered all the aspects I'll be waiting for your letter
