Thanks so much! I really appreciate the effort you're putting in; I'm sorry you had to generate a new document.

FYI, the broader use issue is an agenda topic on the monthly PCB Coordinators call occurring next Monday (Kelly should be joining). Peter Gimlin in OPPT will be presenting and asking for regional input; here is his agenda write-up:

Deliberative Process / Ex. 5

Peter's management is working to schedule a call with the Regional Division Directors as well, but that hasn't been scheduled yet.

We have been working on it since I spoke with you. It had to be updated , went through program and myself and is now awaiting review by DRA, Cecil Rodrigues. You will receive a copy of it along with motley, morris etc. from John Armstead, DD LCD, when Cecil review is complete. Best I can say, Cheryl

Hello Cheryl,

Just wanted to see if you've been able to locate the briefing paper(s) describing the decisionmaking process underlying Region 3's issuance of the NON to Hazelton Creek. My management has been asking about it, and I believe it will be discussed in a weekly meeting with OCSPP management tomorrow. Thank you again for your help!
