TOR 4/19/82

x3

Litton Industries — 4/19/82, 10:00 am.
David Doyle, Karen F., Debbie M., DJS

(1) Wastewater itself probably could be delisted if petition were to be filed (has not been)

(2) Closure Plan
(a) Submitted — 3/17/82 after time as first emergency permit was issued.

(b) Revised closure plan to be in by 4/15/82. Karen hasn't seen it.

(3) Sink hole dye study — travelled from sink hole ≈ 400 yds from Litton to Fantastic Caverns (≈ 3 miles away) in 15 mins. Done under K with MDNR ≈ 1977. Debbie has only appendix to

(4) Lagoon no longer receiving wastes.

(5) Facility will be closed w/i mos. — no need to impose groundwater monitoring requmt. under 3008.

(6) Existing monitoring wells —
(a) 2 wells in existence

R00337302
RCRA RECORDS CENTER

(7) Emerg. permit expires end of April.

(8) David wants

(a) Penalties for not complying with Nov. 81 deadline for groundwater mont.

(b) Penalties for increasing design capacities of lagoon w/o justifying to us first.

(c) Leaking dikes found by MDNR in March. Lat interface of old & new portions. w/ penalties.

(d) Whether we want to impose gw monitoring plan depends on how long till final closure.

(e) Possible violations of closure plan - written them advising them its inadequate.

do regs require this.

(9) Will pump lagoons "dry" — 500,000 gal/day to irrigation & 500,000 gpd to sewer. Finish in about a week.

(10) Debbie - not planning a 3013 referral

Dan -
Mike is interested in
referring this before the "lagoon
is empty." I told him we had a
resource problem. Let me
know what you think.
