Review of Litton revised closure plan

1) Does not state that sludge will be tested to determine if h.w. - or * if they know/assume it's a hw & are treating as such -

2) Did not break-down cost est. - do we care?

*3) gw monitoring

4) do we want to take action wrt 6 mos?

5) Pub Hearing -

Pub. No

* Closure guidance documents quote 265.90
"This gw monitoring program must be carried out during the active life of the facility and for disposal fac, during post-closure care period."
