Subject: IRIS Management Council 6/2/16
Attachments: IMC Minutes 5 26 16.docx

Hi All – We will be having Mgmt Council today.

Below is a mini-agenda:

1) Introduce ICF project management effort (Sam and Vicki)
2) Discussion of how we are collecting data and keeping schedules (Gina and Vicki)
3) AIs from last time
4) Staffing issues/overlap

Gina Perovich
Deputy Director
IRIS Program
USEPA/ORD/NCEA
703-347-8656

Subject: RE: IRIS Management Council 5/26/2016

Hi everyone,

I did not jot down many action items from last week, but there are still some from the previous meetings (please see below). You can read my notes from the meeting in the attached file. Please let me know if I left anything off.

Thanks - Vicki

IMC Minutes – May 26, 2016

<u>Action Items</u>

Ravi will give updated schedule for BaP on Tuesday (RAVI)

Will need epi support for PCBs and phthalates. Maybe Barbara Glenn? She is on vacation and she has loose ends on formaldehyde. There was further discussion about Barbara/Tom mentoring new hire epi people (DAVID+Norm/Belinda)

Follow-up with April - will work on HBCD for 2 months and then will move to PCBs (John V)

Previous Action Items not discussed:

AI: I
but

Deliberative Process / Ex. 5

AI: Maybe try to get database report to see what will be at the interagency review at the same time. (Vicki)

AI: Gina move BaP May 27 milestone out a week (Gina)

AI: Modeler for phthalates – possibility on current cert (Scot)

AI: send around note about time in between to calculate for scout (for consensus). Spreadsheet to calculate the dates going forward. (Vicki)

AI: put their selection of A/B/C (from an edited version of David's classification scheme) in the journal article spreadsheet on the SharePoint site (branch chiefs).

Deliberative Process / Ex. 5

AI – ACSL PBPK software, urgency in decision. Software retired, we can use but no support. New people coming on board no license for them. Met with ORD people last week. Consensus was we can't come up with a solution that would be good for everyone. Consensus that if NCEA were to take the route with R and MCSIM as the software that would be an optimal solution in finding the maximum number of people to collaborate with. Another software (gastroplus (sp?)) would be beneficial to acquire and have. Conclusion we would like is: we go ahead and implement R and MCSIM as our software going forward and also acquire some other single copies of other code gastroplus and matlab (sp?) so that we have software that we are able to read this code. Mary –we already have people who use matlab so have licenses. This was the workgroup consensus. Each group wants to have their own software. Ravi will write it up and Ken can send it out. (Ravi)

AI – future discussion - what is a reasonable amount of time to devote to professional development and how to develop that. (all)

AI: Discuss TQB process again/more (all).
