Date: April 21, 2015
Formatting Checklist for *EHP* Manuscript #15-09912-REV

Main Manuscript

Manuscript formatting

Please save the main manuscript as a word file.
Please add line numbers.
Please double-space all text except for Tables and References.
Please use 12 pt. Times New Roman font for text. Right now the References are in 12 pt. Cambria font.
Please set all margins to 1 inch.

Sections of the manuscript should be provided in the following order:

- Title page(s), including title, author list, affiliations, corresponding author information, short running title, acknowledgements, disclaimers (if required), competing financial interest declaration
- Abstract
- Main text
- References
- Tables
- Figure legends

Author names

Middle initials or middle names should be consistent between the manuscript and ScholarOne. Please ask the following author(s) to add their middle initial or middle name in ScholarOne to be consistent with the manuscript, or add their middle initial or name on the title page to be consistent with their ScholarOne information:

Name on the manuscript	ScholarOne
Christopher Portier	Christopher J Portier
Robert Kavlock	Robert J Kavlock
Stephen S. Hecht	Stephen Hecht

Author affiliations

Please add more information to the affiliation for Dr. Portier.

Acknowledgments, Disclaimers, CFI declaration

Please arrange this material as follows:
Acknowledgments: any thank-you's, any funding
Disclaimers
CFI declaration: information about consulting work (author MTS) followed by: "The other authors have no conflicts of interest to report."

Abstract
All papers must include a structured abstract of 250 words or fewer. Please use the following headings for your Review: Background, Objectives, Methods, Discussion, Conclusions

Citations and sources
Before submitting your final files, confirm that all sources cited in the manuscript are included in the reference list, and add missing sources if needed.

References
Before submitting your final text, confirm that all sources on the reference list are cited in the manuscript. Delete sources that are not cited in the text.

Company information
Because many products are now purchased from online sources, it is no longer necessary (or practical) to add company locations. For name brand products, the company name is required (you can also include a URL, but it's not necessary).

Table 1
Please re-label this as a Figure. Authors may not use colors in Tables.

Figure Legends
The Figure Legends should be included in the Main Manuscript. They should be the last item of text in the main file.

The Figure Legends are too long. Please work some of this material into the text.
