Subject: Provisional Acceptance: EHP 15-09912-REV-Smith

08-Nov-2015

15-09912-REV.R1 - Key Characteristics of Carcinogens as a Basis for Organizing Data on Mechanisms of Carcinogenesis

Dear Dr. Smith:

Your paper has been provisionally accepted for publication in Environmental Health Perspectives, pending your response to the questions indicated on the "Separate Comments" file attached to this email.

In your response, we ask that you:
- Indicate all proposed changes on the attached draft of your manuscript using the Microsoft Word tracking feature.
- Return the tracked copy along with two clean versions of the main text file: one Microsoft Word file and one PDF file.
- Provide separate files, if needed, for revised figures.
- Provide a separate letter to explain major changes and to respond to questions or requests from EHP.

In addition, carefully review your paper for errors, and confirm that your coauthors are fully satisfied with the manuscript before returning your revised files. Please pay special attention to the following problems, which we find are particularly likely to be spotted at this stage:
- Units of measure are incorrect.
- Author names are missing, incorrect, or out of order.
- Author affiliations are incorrect or incomplete.
- Footnotes are missing in the body or legend of a table.
- Figures are incorrect (e.g., wrong graph) or incomplete (e.g., missing axis labels).

This will be your last opportunity to make changes to your manuscript and its accompanying materials before Advance Publication, so please be sure it is correct and complete before sending your response.

Email your files directly to me by replying to this message. We will review your revised files and respond within 5 working days to confirm that your paper is ready for final acceptance.

After final acceptance your paper will be published online as an Advance Publication with a permanent DOI number for citation purposes. EHP staff will copyedit your manuscript within approximately 8-12 weeks. You will receive page proofs for your review before final publication in a monthly issue.

NOTE: If you or your institution plan to issue a press release for this article, please contact Susan Booker (booker@niehs.nih.gov) as soon as possible to discuss EHP's embargo policy.

Please confirm receipt of this email and contact me promptly if you have questions or will be unable to respond by 17 November 2015. Your timely response will expedite final acceptance of your paper.

Best Regards,

Jane Schroeder

Jane C. Schroeder, DVM MPH PhD
