Hello everyone – I like the edits, especially the short bullet version of the last section.

Deliberative Process / Ex. 5

Hi Lynn – these are really good edits – thanks! The final two paragraphs got a bit weird with how many times they referred to the website so I further condensed this section. I'm attaching the revised MYA and two versions of the briefing sheet. The first version is pretty and the other is VERY pretty. I want to make a poster of the VERY pretty version. ☺

Looks great. The only question il pose is whether we need/ want to identify the existing iris assessments as candidates for updating when it says this: "... that may warrant reevaluation due to the availability of significant new research or methods after the existing assessment was completed". It seems some we might reevaluate may not have those characteristics. I'd drop this phrase. Keeps all options on the table.
Congratulations! John

> Attached is a revised version of the MYA that has Tom's and Lynn's edits. Also attached is a shortened briefing sheet with some new bullets on IRIS update, the assessment needs evaluation, and archiving pesticides on IRIS. I think the MYA is DONE but if people have any suggestions on the briefing sheet today or Monday, that would be good. Thanks!

Subject: IRIS - Follow up from last week's briefing with Tom

Hi Vince,

Following up from the IRIS briefing on June 24, Tom has the following recommendations for the IRIS Multi-Year Agenda.

1.
2.

Deliberative Process / Ex. 5

Tom would like to fill the Administrator in on these plans. After you make these changes to the document, please put together a concise summary of the multi-year agenda, with the main points highlighted in bullets (suggest aiming for a half page in plain language).

Deliberative Process / Ex. 5

Please let me know if you have any questions.

Thanks,
