Subject: Re: [USEPA/SWMM-EPANET_User_Interface] EPANET-MTP4r2-Layers Tab-Project Explorer (#207)

@ucchejbb In short, to check all/uncheck all in a group, one needs to hold down the Ctrl key, then click on the group node's checkbox. This QGIS enhancement has actually been thoroughly debated on QGIS git repo. I think Ctrl-click suffices our needs in this software.
