37205

- 1978 NJDEP Solid Waste Admin. order requiring Nat'l Gypsum to cover asbestos-laden waste piles near the Passaic River.

- Nat'l Gypsum complied but made an approx 60° slope near the river which is eroding. {DEP regs say max of 2:1 (~24°).

- 1978 [illegible] story (Star Ledger):
  - 1927 Asbestos Ltd - asbestos fabricating [illegible] in Millington.
  - 1948 - acquired by Smith Asbestos.
  - 1952/53 Nat'l Gypsum acquisition.
  - 1975 Nat'l Gypsum closed plant.
  - 1976 Site acquired by TIFA Ltd.

- Allegations [illegible] addition to asbestos, there may be [illegible] chemical contaminants. (from manufacture of urethane foams; application of acrylic coatings [illegible] asbestos [illegible],

- 1978 NJDOH samples of Passaic River water indicated the presence of asbestos, however concentrations were not higher downstream of the site.

- 2/13/83 NJDEP [illegible]: TIFA is in litigation w/ Nat'l Gypsum over future stabilization work. TIFA wants to add'l work but Nat'l Gyp doesn't.
