2-25-83 9:45 AM (Phone call from THOMAS LEUNG.)

Received phone call from Thomas Leung of the Ministry of the Environment, Ontario, Canada (416-965-9668) regarding the Asbestos Dump site in Millington, NJ.
(Waste Management Branch)

He wanted information regarding remedial action to be taken at the site because Canada's got a similar situation, I told him that we hadn't initiated any remedial action as yet & explained the Superfund process. I also told him the NJDEP had been involved with the site several years ago & that they had worked out a solution involving covering with a hard soil, however that plan didn't work. I referred him to Dennis Lakerty of NJDEP for info regarding their involvement
