March 2019

Dear Colleagues,

We are writing to alert you to an upcoming symposium on water quality monitoring. In

partnership with the San Francisco Estuary Institute, the State Water Resources Control Board is hosting the 4th annual California Water Data Science Symposium on July 1st and 2nd in Sacramento. Registration is free and can be done online through Eventbrite.

This year's theme of **Open Water California – Innovating Through Integrating and Expanding the Water Data Community** is meant to explore how water quality monitoring generates meaningful data that informs management decisions. Particular themes emphasized this year are:

- Ecological flows
- Citizen monitoring
- Innovation
- Climate Pressure

In addition to these broad themes, presentations addressing the following specific topics will be prioritized for inclusion in the Symposium program:

- Statewide monitoring programs
- Innovative monitoring tools
- Open data
- Data visualization and communication

The event is free to attend and you can register through Eventbrite here: https://www.eventbrite.com/e/2019-california-water-data-science-symposium-open-water-california-registration-55709568820.

If you or a colleague have an interest in presenting or have a topic or presenter to suggest, please contact Jay Davis (jay@sfei.org**) or Randy Turner (**randyt@sfei.org**) by March 22nd.**
