Subject: July 11 instead

I sent you an invitation yesterday to attend a workshop to discuss opportunities for expanding stormwater-wastewater collaborations on a watershed scale, but it turns out there is another event on June 26 that presents a conflict for most of our Los Angeles based invitees (thank you to Renee Purdy for getting back to us so quickly to let us know about that).

As a result, we are going to move this event to July 11 (a date when all of our speakers and session leaders can still attend). Undoubtedly some people will not be able to join us on the new date, but at least we won't lose a region. For those who cannot attend on Jul 11, a reminder that you can name an alternate to attend in your place.

Sorry for the confusion. Please let me know if you can join us on Jul 11.

Steve Weisberg
