California Water Quality Monitoring Council

Hello Everyone,
Here is the agenda for the 2018 California Aquatic Bioassessment Workgroup (CABW) meeting. We have another great list of speakers for the two day event. Since this is the 25th anniversary meeting, we have a special session with many of the original presenters, reflecting back on the research and regulatory accomplishments in bioassessment. We also have what's new in bioassessment and many freshwater science presentations. We will again have a half day workshop on the second day entitled "Visualizing and Mapping Bioassessment Data in R"; and, make sure to attend the mixer at The Davis Graduate at the end of the first day.

Don't forget to register and see you at the meeting,
Jim
