Subject: Re: Host exhibitor session- SOT

Hi Nancy,

It might be useful to chat for a few min if you have the time. Call me anytime- a few calls today but in the office. We are trying to coordinate are session where there is no overlap with the session (host exhibitor) that EPA is having on Wed morning (see titles below).
Both sessions, see below, are posted online- SOT website and SOT Planner

Tuesday, March 12th, 9-10 am

TSCA Reform: Use of New Tools and Technology for Prioritization and Chemical Risk Evaluation: Presented by ToxStrategies, Inc.

This session will provide an overview of chemical prioritization and risk evaluations under TSCA as amended by the Lautenberg Chemical Safety Act. It will focus on new analytical tools, technologies, and databases that can be used for prioritization and testing of new chemicals and for risk evaluation of existing chemicals.

Vs. EPS's Session on Wed

US EPA's Toxic Substance Control Act—Strategy for Alternative Test Methods to Reduce Animal Testing: Presented by US EPA

(no description online).
Laurie Haws spoke to the EPA person coordinating that session and was told that it will be a mix of EPA and industry folks discussions on alternative test methods, however I do not think it was completely flushed out yet. We want to make sure there is no overlap and will be in discussions with them prior to finalizing our plans.

For our session - the plan - if permission is granted, to have the following speakers.

Nancy Beck - 10-15 min overview of Amended TSCA and status
John Wambaugh - 10-15 min -- overview of the alternative models **being considered** by EPA
Caroline Ring - TS, 10-15 min- discuss various exposure models, the model she recently published to address susceptible populations, etc
Daniele Wikoff -TS 10-15 min- to discuss the use of systematic review in evaluations of substances under TSCA.

We will have available at the session tea and coffee.

As far as advertising-

We will have a handout available at our booth in the Expo with listed presentations by ToxStrategies at the meeting. Also, a separate handout with both ToxStrategies host-exhibitor sessions (pharma practice is having one as well)- Titles, times, room number and names and presentation titles for each session.

It is likely that ToxStrategies will be sending out an email blast that we will be at the SOT meeting and a list of times, rooms, etc of our presentations which will include the same information for the host exhibitor sessions.

Keep in mind – the ToxStrategies host session is really being used to present a amended TSCA status update (you and John) and then a few tools ToxStrategies has for this process.

If any of these items would prevent you from speaking please let us know.

I hope this helps. If you need something else please let me know.

Best regards,

Susan

Subject: RE: Host exhibitor session- SOT

Hi Susan,
I will indeed be at SOT but I have a feeling my General Counsel/Public Affairs team may not approve of such a speaking engagement. Can you provide a few more details on exactly what the session is, who is participating, who the invitees would be, how you are advertising it, etc?

Thanks for thinking of me!
Nancy

Subject: Host exhibitor session- SOT

Hi Nancy,

Hope you are doing well. We know this is a long shot- but wondering if you would be available at SOT to give a 5-10 overview of amended TSCA for ToxStrategies Host Exhibitor session scheduled for Tuesday morning from 9-10.

We are also going to ask John Wambaugh to give an overview of the alternative models being considered by EPA and then Carrie Ring from TS will discuss exposure models, the model she published on to address susceptible populations, etc and Daniele Wykoff will discuss the use of systematic review in evaluations of substances under TSCA.

If you have any specific questions please give me a ring and if you are not available, perhaps you can recommend someone from your office who will also be at the meeting.

Thanks for considering this request.

Best regards,

Susan
