Hi Dave –HQs is conducting a Program Evaluation (PE) of the Santa Monica Bay NEP (Santa Monica Bay Restoration Commission) in mid-June (June 16 – 20th). HQs conducts these evaluations for each NEP approximately every 5 years. The SMBRC Governing Board meeting (email below) is part of a series of meetings that comprise the evaluation process.

As I am going to be on vacation, Ellen is/was planning on participating with Erica. However, with our imminent realignment, I'm wondering if you are available/interested in participating in lieu of Ellen.

I'm want to discuss when we meet but am sending this email in the meantime. LMK if you have free time tomorrow. Was going to send you a calendar invite but your schedule looks pretty full.

Thanks.

Subject: Agenda for June 20 SMBRC Governing Board meeting

Dear SMBRC Governing Board members and alternates,

Attached please find the agenda for the meeting of the Santa Monica Bay Restoration Commission's Governing Board scheduled for Thursday, June 20, from 9:30 am – 12:00 pm at Del Rey Yacht Club. Also attached is a package of documents that provides background information related to Items 3b and 3d on the agenda.

The series of documents marked for Agenda Item 3b are reports and attachments summarizing the accomplishments of the Santa Monica Bay National Estuary Program (SMBNEP) over the last five years, in program elements identified by USEPA. They are prepared by SMBNEP staff and submitted to USEPA for their review and evaluation of the program's performance over the last five years. The USEPA's evaluation team will give a presentation at the June 20 Governing Board meeting on their initial findings of the evaluation.

The document marked for Agenda Item 3d is the draft final report prepared by the facilitator following his presentation at the April Governing Board meeting. The report compiles and summarizes input solicited from members and other stakeholders through workshops and surveys on the governance structure of the Commission and in relation to the structure the SMBNEP. Findings from the report help to inform the proposed potential amendment to the SMBRC Memorandum of Understanding, which staff plan to introduce and receive input during a scoping workshop at the June GB meeting.
