| **Date:** | Tuesday, March 1, 2011 4:27:05 PM |

Is John Brown going to be a panelist or a speaker. On the topic of oil on the bottom, his abstract speaks to the issue. Are there others?

Regards,

*Paul*

Thanks. Very good.

We are reviewing abstracts and the Steering Committee will be meeting this weekend to build the program. I expect we'll have specifics for you early next week.

One note. I heard today that Mandy Joye will not be able to participate to discuss oil on the bottom in your session. Haven't heard back yet from Ed Overton, but he did submit an abstract for the conference. For now, you and Chris should go with the list I provided last week. About that list, I am still waiting to hear if Chris was able to secure Rich Camilli's participation on the panel.

Thanks,
Marc

Marc,

Finally caught up with Chris. We are all set to begin to engage once the panelists are finalized and the abstracts have been reviewed. Let me know what comes next. Have you rethought the timing?

Regards,

*Paul*

Paul,

Good talking to you today and glad you're aboard. Here are some ideas to touch on in the session on Oil Tracking Technology. This is in no way an exhaustive list. Please also go to the website and look around. We will be sending you more information very soon once we've secured your co-moderator and the panelists.

Marc

| **2C: Oil Tracking Technology (includes biodegradation measurements)** |
