Which one specifically? The first one listed below is what you're thinking?

| |
|---|
| Deep-water sediments collected after the MC252 oil spill reveal a small footprint of Macondo oil associated with drilling mud near the well-head. |
| Protocol for Petroleum and PAH Source Determination in Sediments: MC 252 Source Chemical Fingerprinting |

---

Great.

John Brown has an abstract to present data on this topic.

As you know, Mandy Joye has declined the offer. Let me know if you need Ed's contact info. Thanks

Marc
