---

Marc,

Finally caught up with Chris. We are all set to begin to engage once the panelists are finalized and the abstracts have been reviewed. Let me know what comes next. Have you rethought the timing?

Regards,

*Paul*

Paul,

Good talking to you today and glad you're aboard. Here are some ideas to touch on in the session on Oil Tracking Technology. This is in no way an exhaustive list. Please also go to the website and look around. We will be sending you more information very soon once we've secured your co-moderator and the panelists.

Marc

| **2C: Oil Tracking Technology (includes biodegradation measurements)** |
| --- |
| 2C: Deep-water and subsea monitoring techniques for use during a response |
| 2C: Standardized monitoring protocols and analytical methods |
| 2C: Remote Sensing |
| 2C: Airborn |
| 2C: Persistence of chemically dispersed oil: Is biodegradation enhanced, unchanged or reduced for chemically dispersed oil? |
