Gene,

I've attached a copy of my biosketch and a draft of the slides I'll be using to provide a summary of the technology track of the April SETAC Gulf Oil Spill Focused Topic Meeting. Bill and I are coordinated on producing our slides. We hope that the the slides will help set the stage. Use what you need from the biosketch (it's probably too much info). I've highlighted the DWH relevant pasage in red.

See you in Boston
