Rob,

As per your request, VPB 148.

Thanks,

Steve

Subject: FW: request from Rob Alvey regarding VPB 148 report - Northrop-Grumman Navy Bethpage.

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Hi Steve. Not sure if you still have any of the historic files on this. If so, do you think you might have this one that Rob is looking for?
Have a nice day.

-Carol-

It should have been transmitted to NYSDEC Steve Scharf. He approved the workplan.
Thanks

Do you know who would have it, e.g., who I should ask for it?

Hi Carol,

I've been unable to track down a copy of 1 Vertical Profile Boring completed back in 2015(?) VPB 148 by Navy contractors for Northrop-Grumman/Navy Bethpage. The Dec 2013 workplan was approved by NYSDEC in Feb 12, 2014. I think it was one of the borings that went over 1000 in depth and was looking for the geologic log and gamma log that would have been in the report. I recall seeing the rig while out there a couple of years ago. I checked with USGS for a copy, but drew a blank there too.

Can you get a copy for me?
