Subject: RE: NWIRP Well 6-2 Pilot

Hi Lora

Have you heard anything more from BWD on the pilot? I was planning on giving Mike Boufis a call and wanted to be up to date if anything was new.

Also, EPA and DEC had informed the water districts late last year that we expected to be able to provide them with raw validated data within 75 days of sample collection. Could you and Jim let me know how we are doing on that front?

Thanks

Doug

Doug,
I have contacted BWD several times to get an update. BWD has to register their company in our database so that we can setup the contract. When I spoke to Mike Boufis in April he said that he is working on it. I have not received any information nor has our contracting office. I left a follow-up message today.
Lora

Hi Richard and Lora

Would you be able to provide an update on the status of your discussions with the water district regarding the pilot at Well 6-2? If you would prefer to do it by phone maybe we could set something up for next week?

Thanks and have a good weekend.

Doug
