Hi Jason,

Thanks for the comparison table, Jason. Sorry for taking time. Still trying to confirm if any of the attys will be participating in our tomorrow's call. So far, Bruce Aber and Brian Carr will not be and am waiting to hear back from Jim Doyle soon.

Thanks and will get back hopefully very soon.

Lorenzo

Lorenzo:

Attached is the table that the U.S. Navy prepared comparing RE-108 groundwater extraction and treatment alternatives.

Also, can you let me know if there will be any attorneys participating in our conference call tomorrow?

Thanks
Jason

Lorenzo:

I had left the office by the time your email arrived. I sent the request a few minutes ago to our attorney. Hopefully you will get this information this morning.

Thanks
Jason

Hi Jason,

Following up on our phone call earlier this afternoon, pls have your attorney, Patrick Foster, email Navy's RE-108 Phase 1 and 2 property locations list and also RE-108 Phase 2 Comparison Table to the following 3 EPA attorneys:

James Doyle
212-637-3165
Email: doyle.james@epa.gov

Brian Carr
212-637-3170
Email: carr.brian@epa.gov

Bruce Aber
212-637-3224
Email: aber.bruce@epa.gov

Thanks so much for all your help, Jason.

Lorenzo

Morning, Jason,

We had a briefing for Walter last Friday ref property access/acquisition for Navy RE-108 GW P&T.

It is our understanding that the Navy has said that they need 1-3 years to acquire approximately 2-acre property for the RE-108 treatment plant, after which they would complete design and then construct the treatment system, which would be 2022 or later. Is the location of this 2-acre property the deli and gas station near the RE-108 hotspot (corner of Hicksville Road and Hempstead Turnpike)?

Also, the above 2-acre property access/acquisition is for RE-108 Phase 2. Would any property access/acquisition, or also acquisition, be also needed and required for RE-108 Phase 1 (i.e., RE- 108 Hotspot Interim Conveyance treatment system? I think yes. The Navy's Draft Comparison of Interim Treatment System Alternatives to Address Northern Portion of RE-I 08 Hotspot Area Groundwater, which Don emailed Doug on May 24, 2017, states the need for easement or lease for the RE- 108 Hotspot Interim Conveyance treatment system. In addition, Don stated in his May 24, 2017 email that NYSDEC had also requested that the Navy also provide a comparison for the proposed RE-108 Hot Spot system (I assume that is RE-108 Phase 2). Could you share that with us of you have received it.

Anyway, it would help us a great deal for our conf call this Thursday if the Navy has provided to NYSDEC the locations of the properties that they have identified for the RE-108 systems (per 3-1-17 NWIRP-NG 1st GW Quarterly Coordination Meeting Minutes) and if you could share that with us.

Thanks much, Jason.

Lorenzo

Lorenzo

I am out today. Parents weekend for my oldest son. I will call on Monday if okay. We were hoping for a late October update on the engineering analysis but will likely be in a couple weeks or so. Scheduling this is being completed now.

I have CC'd Don on this email if you need additional information

Thanks
Jason

I believe the schedule you provided at the 9-11-17 NWIRP-Northrop Grumman 2nd GW Quarterly Meeting anticipated late October 2017 for public meeting on status of field activities, December 2017 for more comprehensive 2nd public meeting, and mid-2018 for FS/PRAP public meeting.
