Congress of the United States
Washington, DC 20515

May 1, 2019

Dear Navy/Grumman Plume Stakeholders:

Please join all stakeholders for a roundtable discussion regarding the Navy/Grumman plume remediation efforts. Officials from the Bethpage Water District, the New York State Department of Environmental Conservation, the United States Navy and Northrop Grumman, as well as Town of Oyster Bay Supervisor Joseph Saladino have already agreed to participate. The event will be held on Wednesday, May 29 from 1:30 pm to 4:00 pm in the Community Room at the Town of Oyster Bay Ice Skating Rink, located at 1001 Stewart Avenue, Bethpage, New York. Lunch will be served at the beginning of the meeting.

The purpose of the roundtable is to bring all interested parties together to review the progress that was made over the past year and to determine where we can work together to accelerate the clean-up of the site in the most effective and efficient manner possible. Working together, we can each fulfill our mission to get this job done.

I hope you will be able to join us for an interesting and productive work session. Please contact my District Director, Cindy Rogers, to confirm your attendance or ask any questions you may have. She may be reached at 631-923-4102 or cindy.rogers@mail.house.gov. I look forward to seeing you on May 29.

With kindest regards, I am

Sincerely,

Thomas R. Suozzi
