Gentlemen:

In advance of our call this afternoon, I thought I would pass along a list of topics/subjects that we may want to touch on during the ozone panel. Of course, I defer to each of you as to what you would like to discuss. I just thought I'd pass these along for your consideration.

- EPA's proposed lower ozone standard – planning/timeline;
- Background ozone issues in the West;
- Regulatory tools to address background ozone;

- Western ozone transport issues;

- CAA Good Neighbor Provision and EPA's Good Neighbor Memorandum (implications for Western states);

- EPA ozone implementation guidance;

- Ozone Advance;

- Uintah Basin potential nonattainment designation – status/timing;

- Uintah Basin regulatory status (e.g., potential FIP);

- Future establishment of ERC Banks for the Uintah Basin or elsewhere;

- Potential new or expanded Colorado nonattainment areas (under proposed and existing NAAQS);

- Potential regulatory tools/plans to address new nonattainment areas in Colorado;

- Colorado ozone SIP timing/status for Denver/Metro NAA;

- Western ozone modeling/study updates;

- Potential relationship/connection between ozone and climate change;

- Uintah Basin study updates.
