Subject: any additional input from those that have not review it? RE: Input on ADI Update FRN AD list/abstracts needed ASAP
Attachments: FR Notice _ADI_update 7-23-2018 rev3.docx

Hi All,

If you have not review the ADI Federal Register Notice for the ADs related to your assigned sectors/rules, please let me know ASAP. I would need your input by no later than Thursday of this week. I plan to send to the OGC and AEMs on Friday.

FYI. I have incorporated two new R5 ADs and deleted on AD per Sara/Marcia request, as well as made revisions to abstracts based on input from the regional staff and your input (Rafael on woodstoves and Marcia).

Thank you for the support!

Maria

Subject: Input on ADI Update FRN AD list/abstracts needed ASAP

Hello All,

Attached is the Federal Register Notice with a list of ADs to be published on the ADI and related abstracts for your review. I would need your input ASAP to complete the ADI update within the next few weeks. Let me know what is your timeframe for providing input on your sector ADs.

Please review AD list and abstracts to identify any ADs that should be taken out of the ADI batch for any reason (e.g., being inconsistent with current policy, incorrectly issued. Etc.), and provide any edits if you wish. Please note that I also plan to send the FRN to the Air Enforcement Managers to make sure we did not overlook at an AD with issues, before routing to senior management for approval.

- Rob- There is one AD on the OIAI policy [M170018-see page 19]. I do need to know if we continue adding these old ADs with the disclaimer that was added to others since the ADI is a historical database.

- Please note that I already took some considerable time screening out ADs from the batch and revising abstracts based on review of the AD letters and per the request of regions. [Patrick-I will send you the redline version].

- If you all want to review the AD letters, I also provided the zip document with the AD documents.

Thank you for your support!

Maria
