Rob and Sara- I will let Phill and Apple know that OC is taking the lead on the request- so we don't get things confused in the briefings.

Subject: Expedited FAR request on OIAI/MM2A reclassification rule

Rob,

The Options Selection for the reclassification rule has been delayed to October 18th (The meeting notice came yesterday, so I had already updated the dates on the MAMPD weekly). At the workgroup meeting today, they let us know that they are also requesting expedited FAR, with the intent to send us the FAR package on October 30 and FAR scheduled for November 15 (10 working day review). However, they want a response on the expedited FAR request by October 19th. In the past we've gotten direction from the AA that we shouldn't agree to expedited FAR if we don't have the necessary materials to review. Here we have a promise of the materials, but nothing in hand (and presumably the materials are not finalized since OS hasn't happened yet). Please let me know how you'd like me to proceed. Thanks.
