Hi Marcia,

Attached are the slides we developed for Regional Office use to provide an overview to stakeholders on the new 2018 Wehrum Memorandum. I think these slides will be appropriate for the meeting you are referencing below. I have also attached the talking points we have used during calls HQ is supporting associated with the Wehrum Memorandum. We plan to address state implementation in the upcoming FR notice and you will note that the 2007 Proposal [that was not finalized] spoke to enforcement. We anticipate addressing enforcement issues in the upcoming FR notice also.

Please note, you will need to date the slides and do a quick review before you send to your management. Call me if you have any questions.

Thank you, Debra

Subject: RE: Major Source 2 Area Source (MM2A) Workgroup Meeting

From the WS Home page - "This Workshop is designed for Federal, State, Tribal and local regulatory staff who work in the Air programs throughout the nation's EPA Regional Offices and States. The course, which is specifically designed for inspectors and enforcement officers, was developed by a committee of senior Region 6, State, local, and EPA field/enforcement staff."

Slides and talking points would be great.

We have slides Marcia. We also have talking points. What is your preference? Can you clarify if your "air inspectors" are all state inspectors and/or EPA or if there will be others in your audience?

Thank you, Debra

All,
I have been asked to speak on some CAA topics at an air inspector conference in R6 in May. One of the areas they want me to speak to is OIAI. Have you prepared any briefing materials yet that you could share? They would be seen outside of the Agency, so we can scrub as needed. Or it may be that we don't have much to say. That could be fine too.

Thanks.
