Subject: FW: Quick Review Request

Hi Terri,

Mike Bellot from RCRA WCED asked me to review a paragraph about the implications of the once-in-always-in policy change for an NCI Enforcement Alert related to a R1 Tradebe case. I didn't see any issues, but Greg suggested that I should seek your input, since you are so involved on the once-in-always-in policy change issue. Mike asked for feedback on this by the end of this week. Please let me know if you have any input, or otherwise if you won't be able to review it.

Thanks,

Dan

Dan/Grecia

I hope you are well.

We are in the early stages of pulling together an Enforcement Alert on the RCRA National Compliance Initiative and wanted to include a paragraph describing the change to the "once in always in" policy. We drafted some language, but want to be sure our description is both accurate and clear. Could you possibly review the following paragraph next week and let us know if you have any recommended changes?

Facilities that are No Longer "Major Sources" Under the Clean Air Act.

Deliberative Process / Ex. 5

I am also attaching a copy of the entire enforcement alert if you want to see this paragraph in context. Please don't circulate the Enforcement Alert as it is currently being reviewed, so some additional changes will occur (especially in the case summary boxes). That said, we do not intend to change the "once in always in" section once we get language you agree on without running it by you again.

Many thanks!
